Note:

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3b, State Total Served During Year is calculated using data from URS/DIG Tables 3a and 3b.

This table uses data from URS/DIG Tables 3a, 3b, and 6.

State Notes:

3a Gender None

Age None

Overall None

3b Gender None

Age None

Overall Children's long-term inpatient is included in the count for State Psychiatric Hospitals. Other Psychiatric Inpatient includes community hospitals and evaluation and treatment centers.

6 Hospital None

Other Inpatient None

Residential None

Community None

Overall Length of stay is calculated on the patient's entire length of stay. However, for Other Psychiatric Inpatient settings we only receive a record for an episode once a patient is discharged from the setting. Our data for Other Psychiatric Inpatient was updated 5/2004 so we would have all discharges through this period which would include all clients who were in Other Psychiatric Settings in FY03. Other Psychiatric Inpatient includes community hospitals and evaluation and treatment centers.
